LISTING**

Dear Sir:

Enclosed is a substitute diskette which contains a computer readable form of the Sequence Listing as originally filed on March 27, 2001 for the above-referenced patent application. Applicants note that the paper copy of the Sequence Listing as originally filed complied with the requirements of 37 C.F.R. § 1.821. However, the diskette filed on even date produced misaligned numbering not present in the originally filed paper copy. The material on substitute diskette enclosed herewith is identical in substance to the Sequence Listing as originally filed, as required by 37 C.F.R. § 1.821(f). The computer readable form of the Sequence Listing contained on the enclosed diskette is understood to comply with the requirements of § 1.824(d). No new matter has been added.
